PROMPT

Problem 1: Find the total number of crimes recorded in the Crime table

Take a screenshot showing the SQL query and its results. Upload the JPEG (.jpg) file below for your peers to review.

Problem 1

Find the total number of crimes recorded in the CRIME table

```
[5]: # Rows in Crime table
%sql select count(*) from CHICAGO_CRIME_DATA

* ibm_db_sa://wjf49962:***@dashdb-txn-sbox-yp-dal09-12.services.dal.ibm.com:50000/BLUDB
Done.
[5]: 1
533
```
